

MobiVisor

Our Mobile Device Management System (MDM):
powered by IOTIQ GmbH

What is a Mobile Device Management Software (MDM)?

“

We understand MDM as the ability to manage and secure all mobile devices within a company via a central platform. The ability to not only save administrative effort, but also to comply with data protection and be protected against threats are among the greatest advantages.

– Sven Noack, CEO IOTIQ Germany

Challenges in the company without an MDM

Challenges in the company without an MDM

- High acquisition costs
- Little overview of devices in use and their status
- Loss of overview of contracts with external providers
- Many players from ordering to commissioning lead to errors, gaps and additional work
- Disproportionately high procurement and administrative costs
- Outdated models, no overview of GDPR compliance or availability of apps

Solution: MobiVisor MDM

- ✓ **iOS, macOS and Android** devices managed centrally
- ✓ Email and phone support **included**
- ✓ **GDPR-compliant** setup of the devices
- ✓ Integration of **existing devices**
- ✓ Licenses can be **extended at any time**

MobiVisor MDM functions

Security

- Block apps or websites
- Configure Wi-Fi or Bluetooth connections
- Only allow apps from trusted sources

Management

- Assign users to devices
- Reports and analyses about the devices
- Create user groups, assign apps and policies

Setup

- Preconfigure e-mail accounts
- Create work and private profiles
- Installing and uninstalling apps

MobiVisor, compared

What distinguishes MobiVisor from other MDMs such as JAMF, Miradore or Intunes?

Are service and support included?

An additional service fee is often charged - but not with MobiVisor.

Is the MDM GDPR-compliant?

MobiVisor is hosted in Germany and complies with GDPR guidelines. MDMs with foreign cloud like Hexnode & Miradore are not. We also offer on-premise installation.

Do I see commands in real time?

Complex MDMs are often slow. MobiVisor, however, is optimized for speed. Commands reach the devices in real time.

Do I have access to Remote Control?

This is often an extra function - but always included with MobiVisor.

Can I use all features?

Simply unlock everything? With MobiVisor, we provide you with all functions directly - no annoying rebooking necessary.

Can I schedule updates?

MobiVisor goes one step further as an MDM and supports you in every respect. Other providers do not offer this feature.

Your advantages with MobiVisor MDM

MDM without a minimum term

Our service will convince you. And if not, you won't lose any time unnecessarily.

No minimum order quantity for your devices

Perfect fit: Particularly suitable for SMEs!

Book additional modules flexibly

Test our extensions and book them as required.

Flexible license extension

It is also possible to increase the number of licenses individually.
