

MOBIVISOR

Setting up an Android device for work & private use

Instructions for **admins** on how to register an Android device with Android Enterprise as a **Company Owned Work Profile (COWP)**

Important information

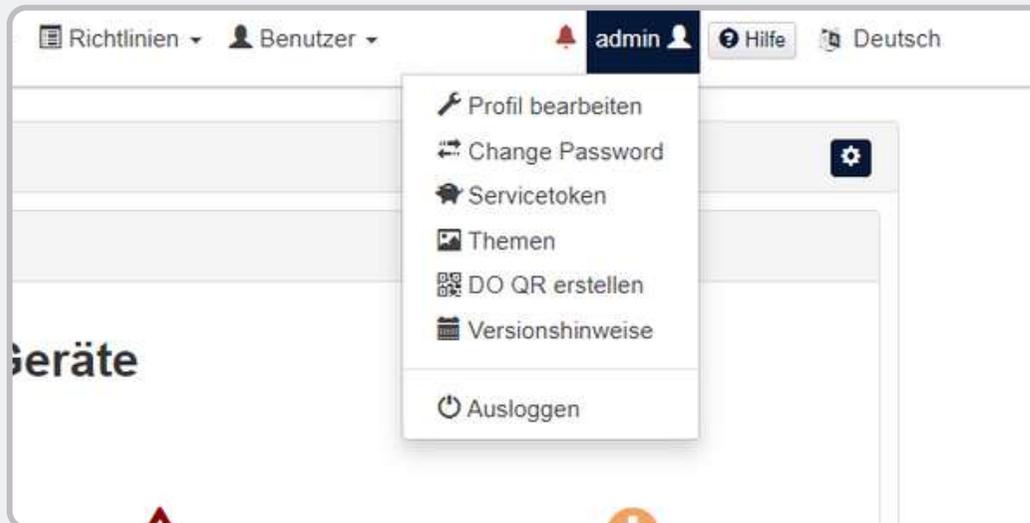

The steps shown are exemplary for one type of Android device. The sequence may vary slightly depending on the device.

In this case, continue to the point where your progress matches the instructions again.

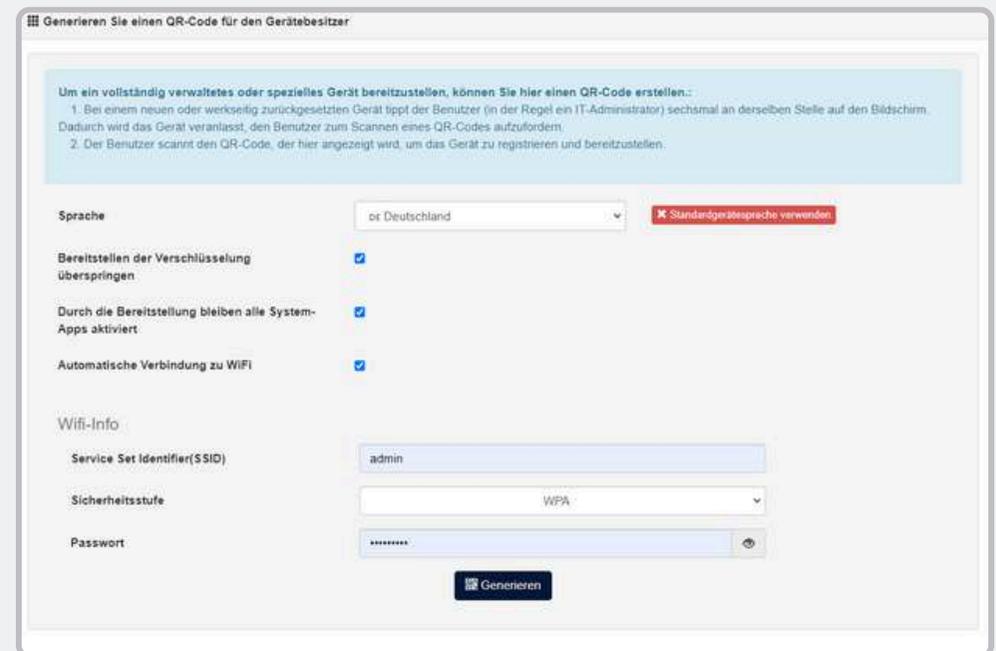

Preparation

- Reset the device completely
- Ensure a stable internet connection
- First follow the instructions for creating the DO-QR code.

Step 1

- Create the device owner QR code in your personal MobiVisor domain.
- To do this, call up the menu under your user name and click on create DO QR.

You can also configure the DO-QR code so that a specific Wi-Fi connection and language are already preset.

MOBIVISOR

Step 2

Now click on Generate. The device owner QR code appears.

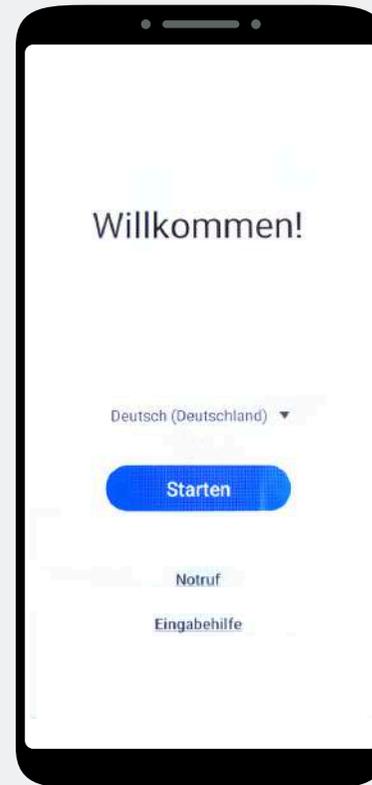

For better handling, we recommend that you print out the QR code and have it ready for scanning.

Now follow the steps for registering the device on the following pages.

Step 3

Start up the device

Step 4

You are on the welcome screen. Tap this 7 times until a camera window opens. Use the camera window to scan the DO-QR code.

Scan the device owner QR code.

MOBIVISOR

Step 5

Connect to a Wi-Fi network.

Step 6

The device now belongs to your organisation. Tap on Continue.

Step 7

The work profile is now set up automatically.

MOBIVISOR

Step 8

Select **"For work and personal"** here

Step 9

Tap on **"Agree"**

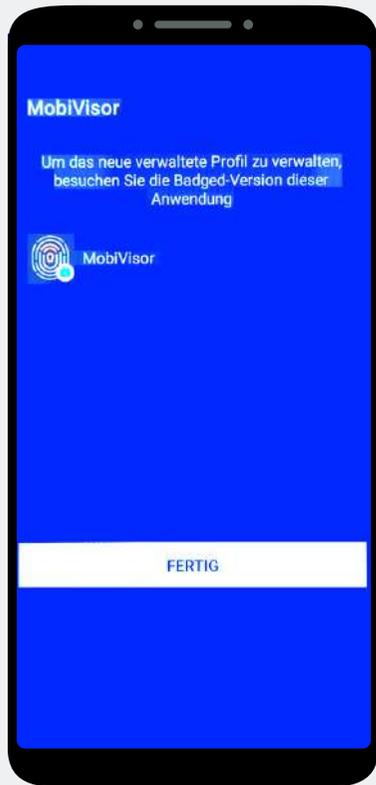

Step 10

The work profile is now being set up.

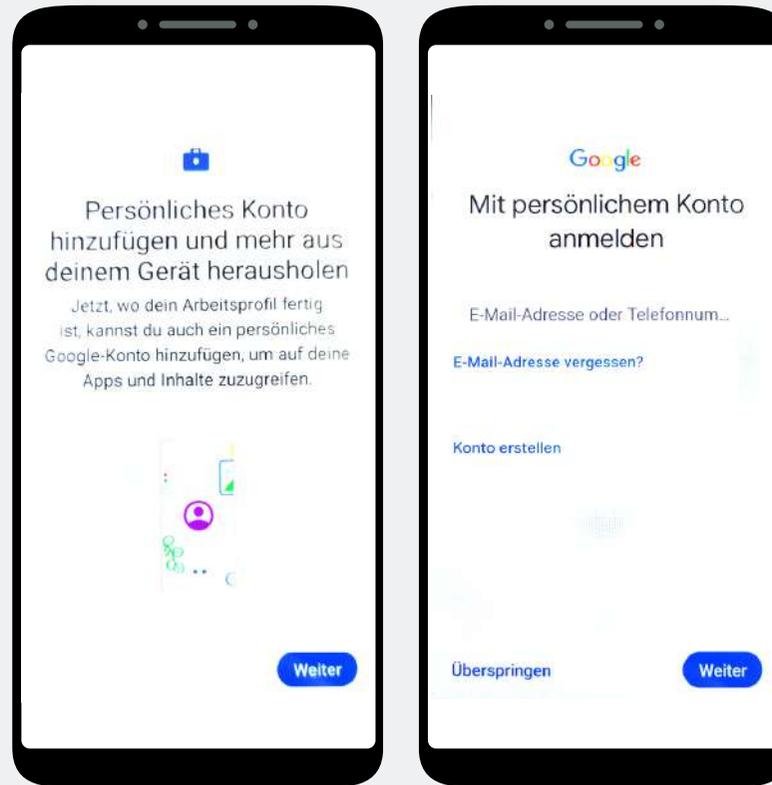

MOBIVISOR

Step 11

The MobiVisor App opens automatically. Tap on "Done".

Step 12

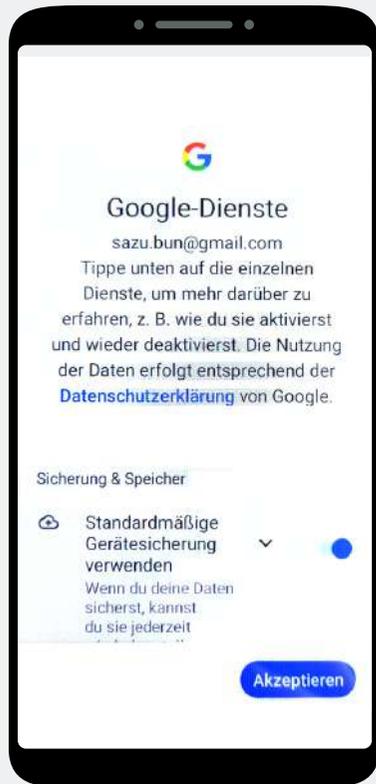

The user must add the private profile. Skip this step.

Step 13

Tap on "Do not restore".

Step 14

Accept the Google services.

Step 15

Do not assign a PIN etc. The user must define this themselves. Therefore, skip this step.

Step 16

If you do not want to allow the Google Voice Assistant, skip this step.

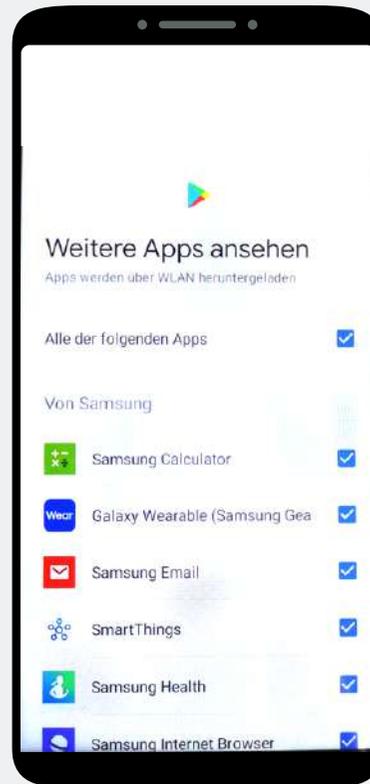

MOBIVISOR

Step 17

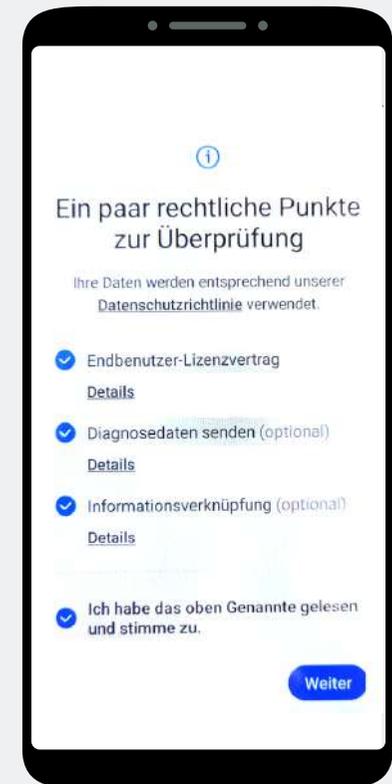

You can also skip this if you do not want to use the Assistant.

Step 18

You will be shown suggestions for the standard apps for the device. These are intended for the private profile. You can skip this step.

Step 19

Agree to the privacy policy.

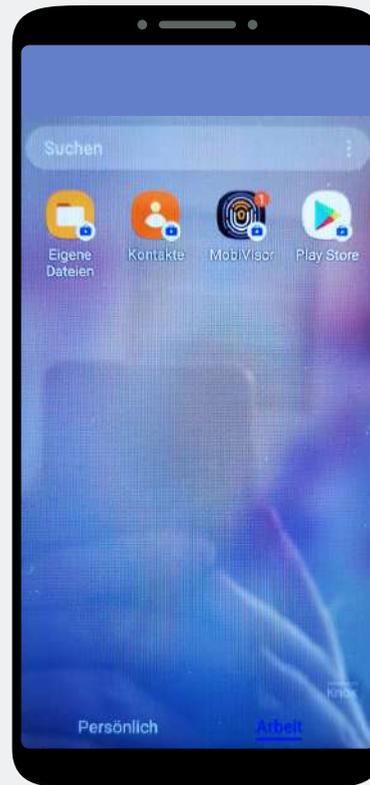

MOBIVISOR

Step 20

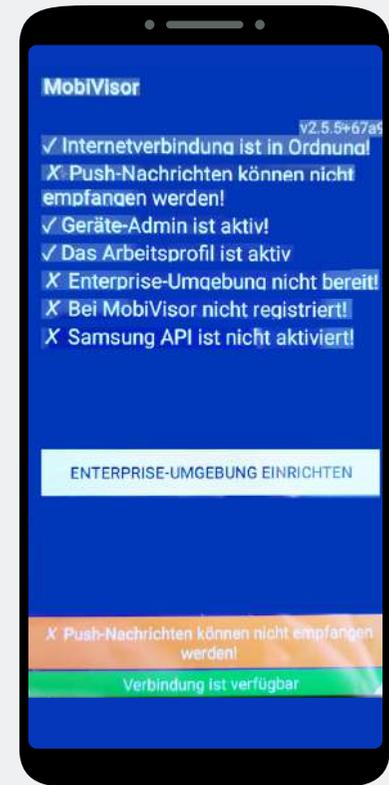

Your device is now divided into two profiles.

Step 21

Swipe to the left to switch to the work profile and open the MobiVisor app.

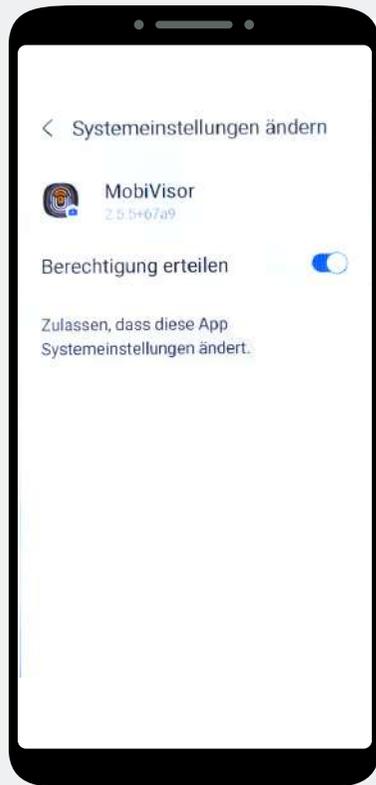

Step 22

Tap on "**Set up Enterprise environment**".

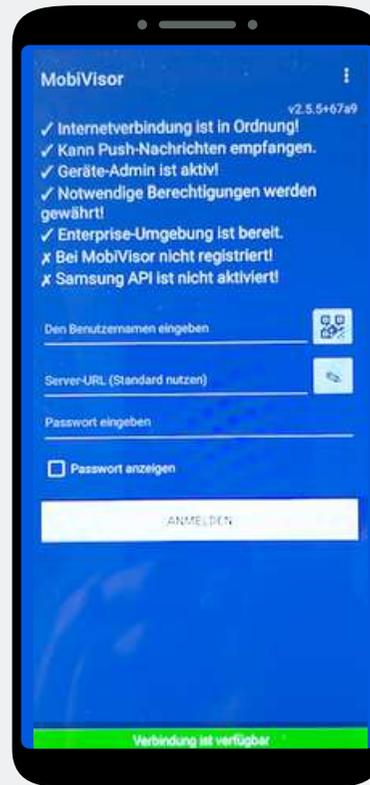

MOBIVISOR

Step 23

Grant MobiVisor all authorisations and exit the system settings.
Open the MobiVisor app again if necessary.

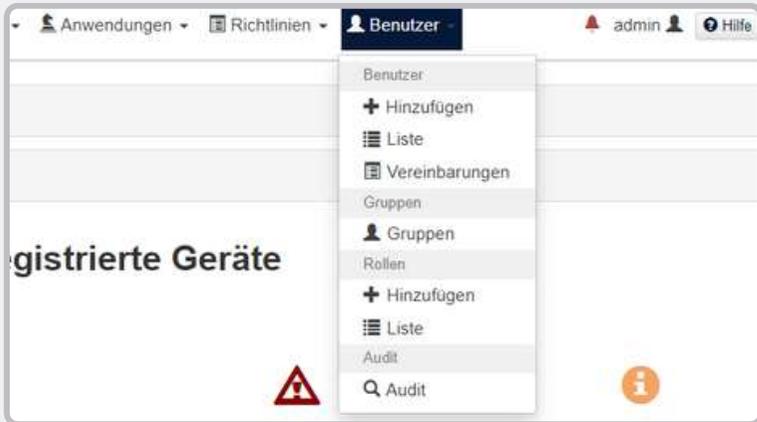

Step 24

You can log in using the QR code.
To do this, tap the small QR code field next to the user name.

MOBIVISOR

Step 25

The login data for the MobiVisor app can also be found in your personal MobiVisor domain. To do this, go to Users > List.

Step 26

You can see all the users you have created in the list. You can find out how to create users in the instructions "Creating users in MobiVisor".

MOBIVISOR

Step 27

To register with a user QR code, click on "QR code". You can now scan this using the MobiVisor app.

Please note that you must use an individual QR code for each user.

Once the device has been successfully registered, a "1" appears next to the user. You will also now find the device in the device list of your MobiVisor domain.

To log in with a user name, password and MobiVisor domain, you can also take the user name from the user list.

The password is **NOT** saved in MobiVisor and cannot be read there. If you would like to use this for logging in, please enter it separately.

MOBIVISOR

Step 28

After successful login:

- Apps from user groups are installed automatically
- Policies are applied automatically
- If the device appears green in the device list and can be controlled via MobiVisor

Only for SAMSUNG devices:

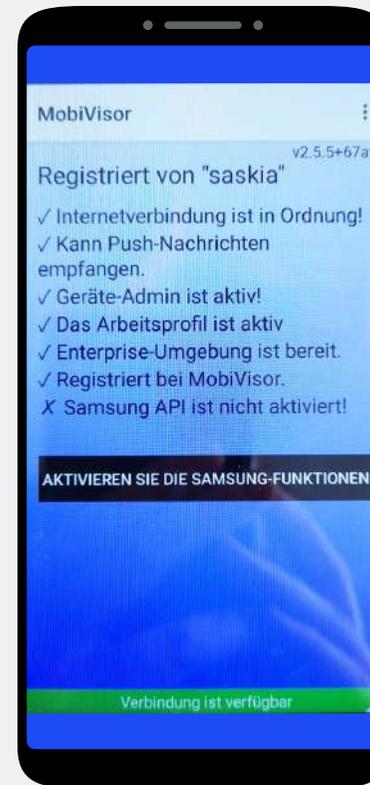

Please activate the SAMSUNG API after successfully registering.

You can control the connection to MobiVisor within the MobiVisor app.

In the MobiVisor app:

- See applied policies
- Apps that have been installed or are still waiting to be installed
- The "Messages" and "Files" modules only appear if you have added MobiVisor Messaging and MobiVisor Files.
