# Introduction to the MDM-Suite MobiVisor

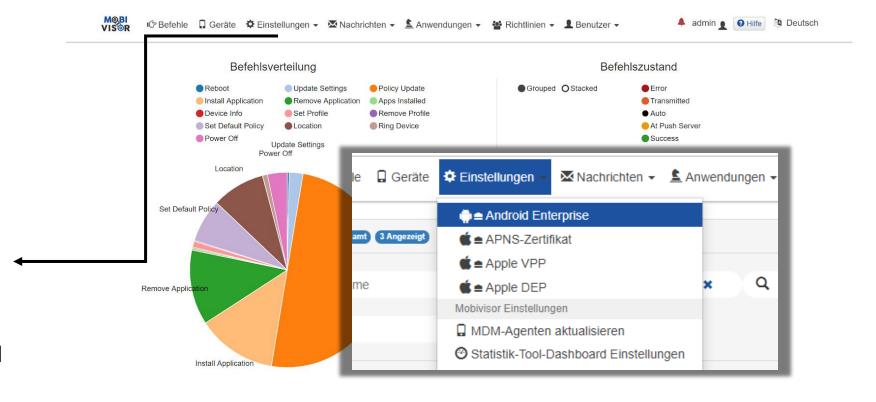

#### Android: Introduction to the MDM-Suite MobiVisor

Before you can fully use Android Enterprise, you must first register with Google.

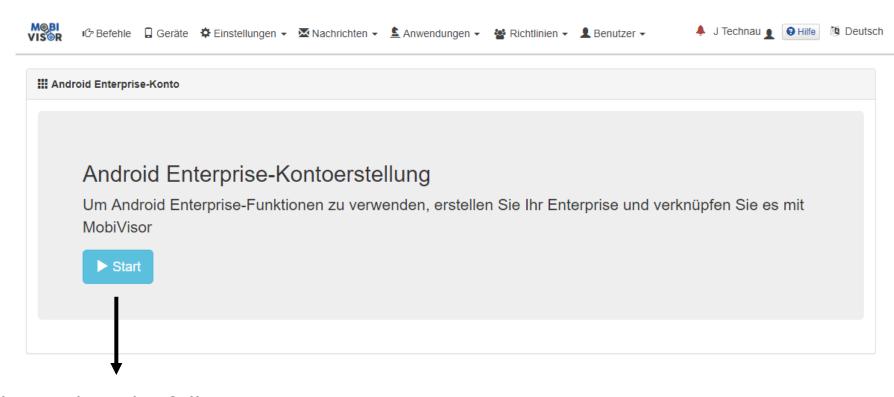

From the main screen (click on the MobiVisor icon) you can access the drop-down menu via the "Settings" tab.

There you can select "Android Enterprise".

#### Android: Introduction to the MDM-Suite MobiVisor

Click on start and complete the following setup.

#### Device enrollment: Introduction to the MDM-Suite MobiVisor

If you have successfully set up an Android-Account, you can now set up your tablet or mobile phone.

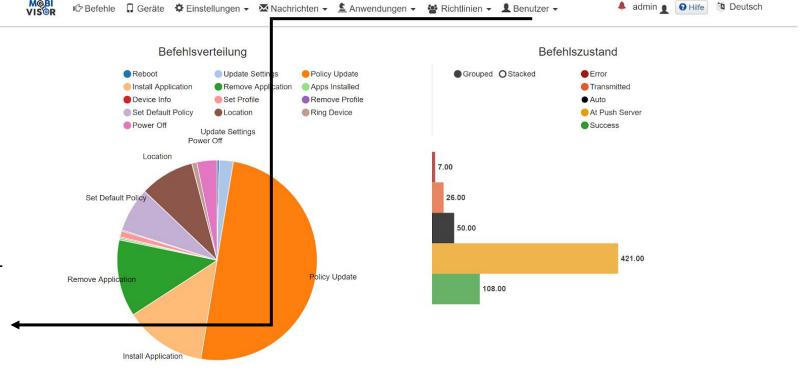

- 1. Unpackage the device and start it.
- 2. Connect it to the wi-fi.
- 3. Instead of a user-account (email), enter the shortcut afw#mobivisor.
- 4. Follow the menu and choose the option "Device owner" then click further.
- Click "Enterprise-environment"
- 6. For the final MobiVisor-registration, create a user in MobiVisor (see following slide) and use this login-data or QR-code.

#### User management: Introduction to the MDM-Suite MobiVisor

User management is central to MobiVisor. User accounts are assigned to mobile devices. You must therefore first manage your users.

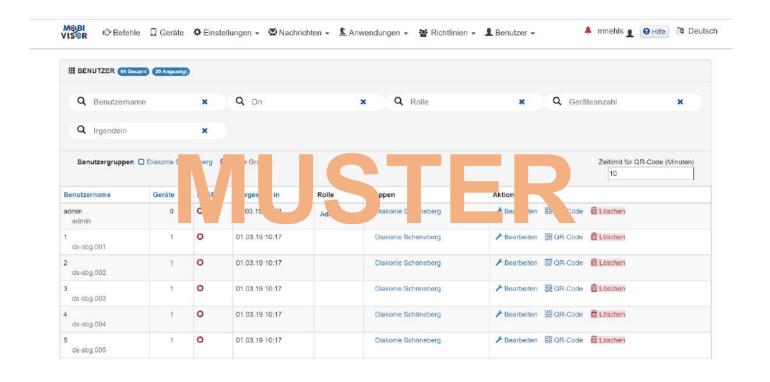

From the main screen (click on the MobiVisor icon) you can access the user overview via the "Users" tab and the "List" drop-down menu.

#### User management: Introduction to the MDM-Suite MobiVisor

In this overview you will find all user accounts (employees) of your company. Under "Edit" you can manage the users.

#### User management: Introduction to the MDM-Suite MobiVisor

In "Edit" you define the e-mail, the user and display name and the password of the user account. You also assign the user to a group and distribute rights (roles)

#### Group management: Introduction to the MDM-Suite MobiVisor

Under "Users" - "Groups" you create new groups and subgroups for your companies. Groups are used for the uniform distribution of settings and specifications such as permitted applications (apps) and policies

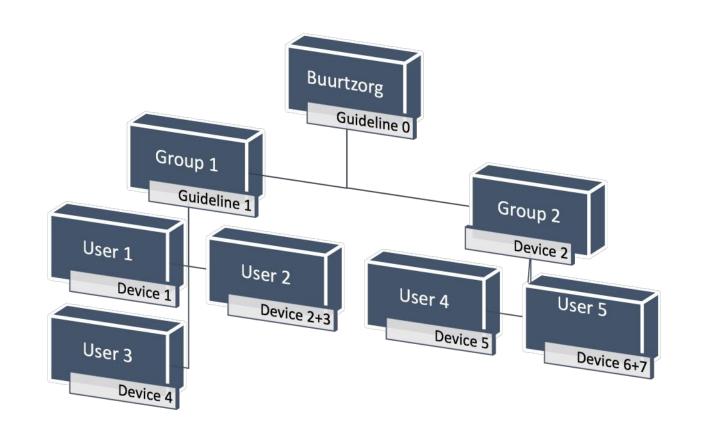

#### Management system: Introduction to the MDM-Suite MobiVisor

Devices 1,2,3,4 have guidelines 0 + 1

Devices 5,6,7 have guidelines 0 + 2

Guideline: Specified use (e.g. telephone use or app use)

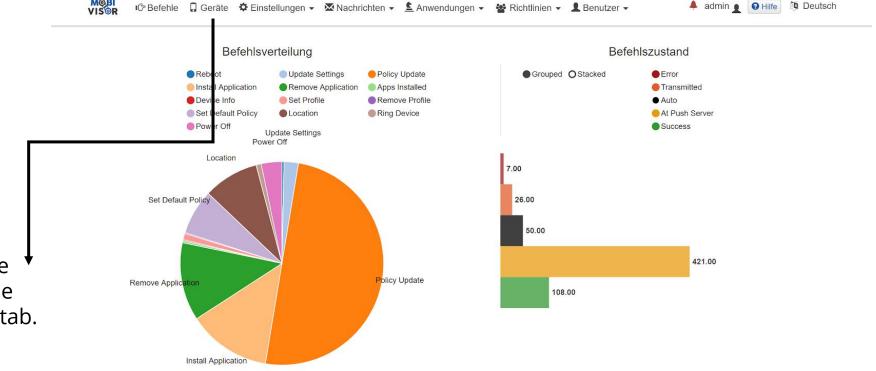

#### Device management: Introduction to the MDM-Suite MobiVisor

Data, position, status; information, inventory and statistics

### Information, inventory and statistics: Introduction to the MDM-Suite MobiVisor

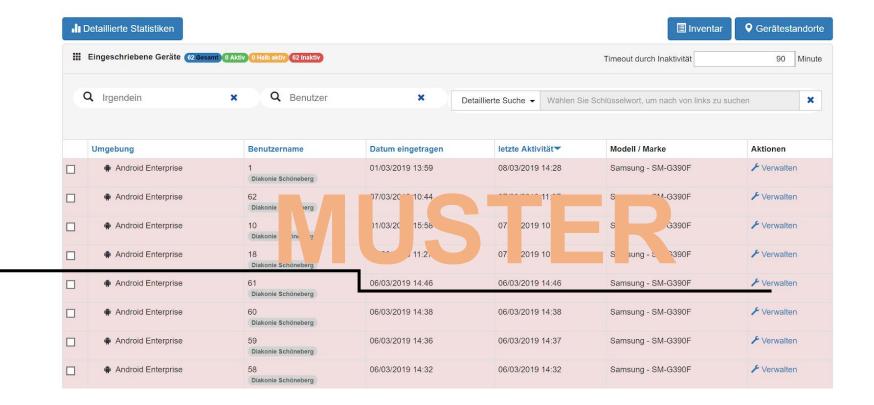

From the main screen (click on the MobiVisor icon) you can access the device overview via the "Devices" tab.

### Information, inventory and statistics: Introduction to the MDM-Suite MobiVisor

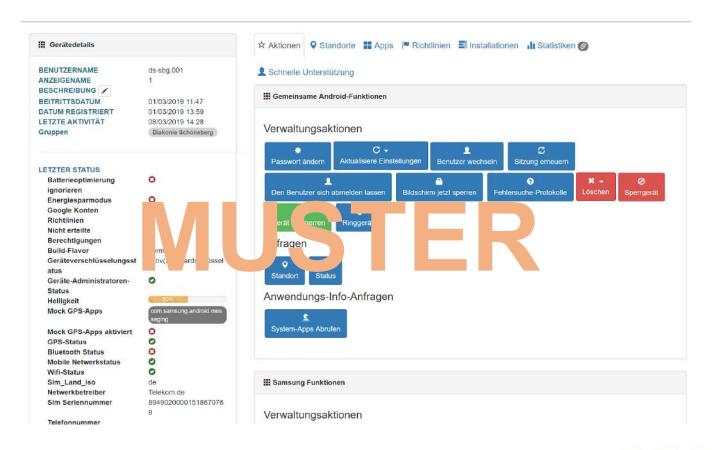

In the device overview you will find all devices with their current status. For more information about the individual devices, please click on "Manage".

### Information, inventory and statistics: Introduction to the MDM-Suite MobiVisor

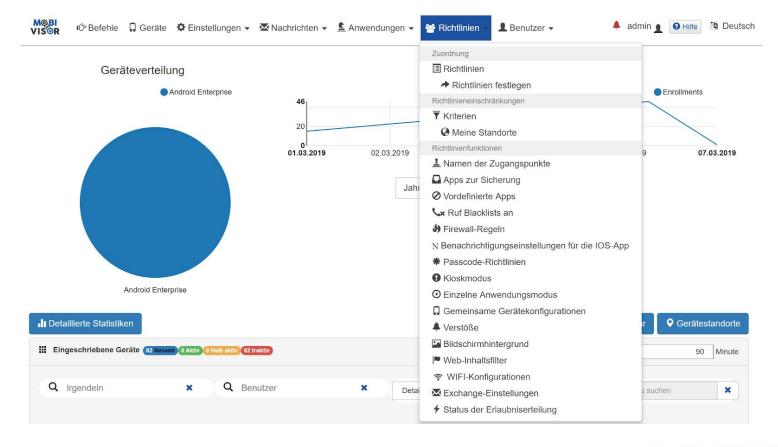

In the "Manage" menu you can, among other things, change device passwords, change users and remotely monitor the device.

#### Usage specifications and policies: Introduction to the MDM-Suite MobiVisor

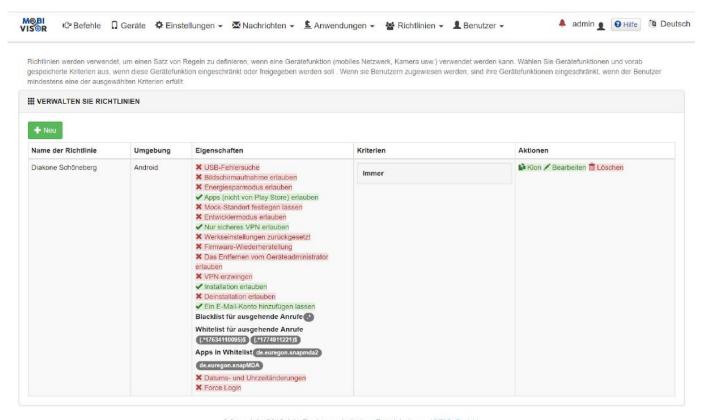

Create and manage policies: From the main screen (click on the MobiVisor icon) you can access the policy overview via the "Guidelines" tab and the "Guidelines" drop-down menu.

### Usage specifications and policies: Introduction to the MDM-Suite MobiVisor

Create and manage guidelines: The Guidelines menu displays all created policies, lets you edit them and create new guidelines. You can create a new guideline by clicking on "New".
