

Instructions for creating users and user groups in MobiVisor

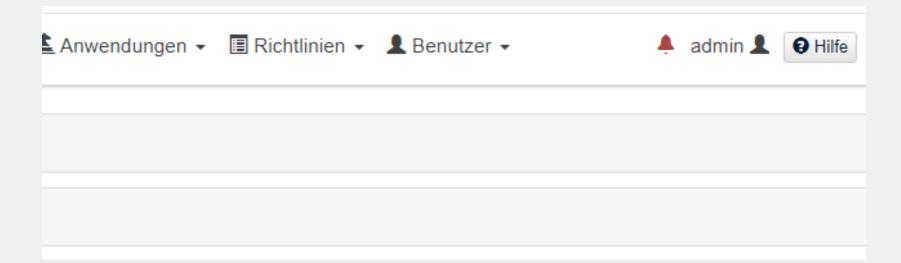

Info

- Prepare a file with the user data: either an excel sheet or a CVS file
- The devices do not have to be registered in MobiVisor at this stage

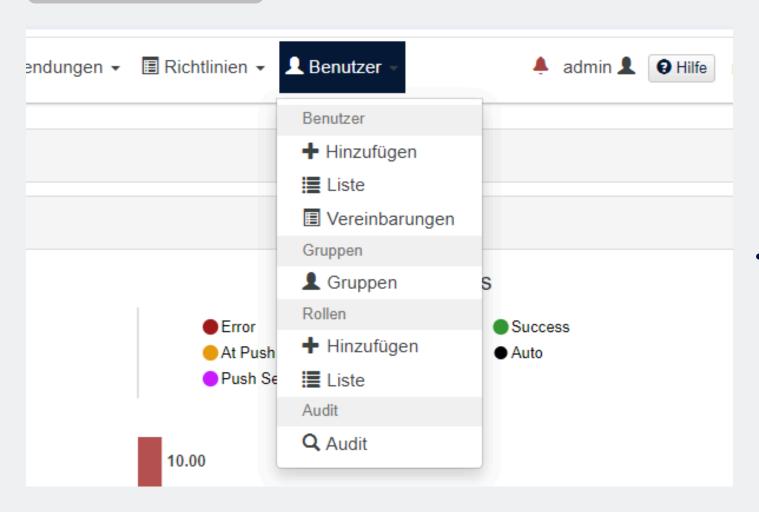

Step 1

- Next to your login you will see the menu item "User".
- Click on this item and expand the menu.

• Now click on "Add" ("Hinzufügen").

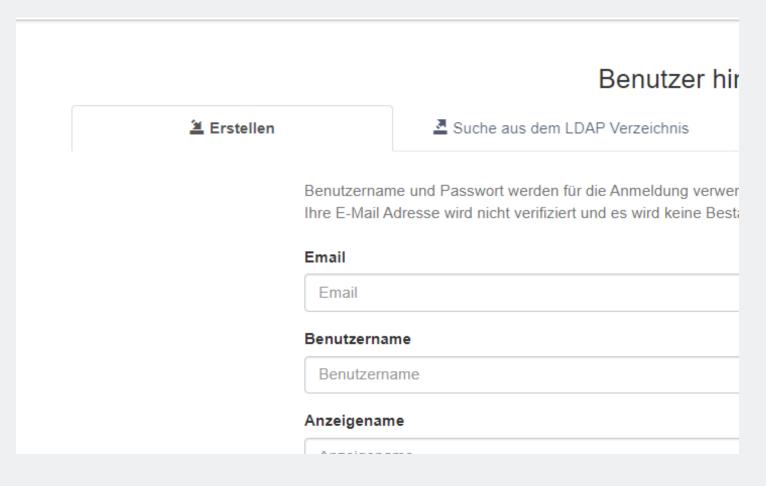

Benutzer hinzufügen				
Erstellen		Suche aus dem LDAP Verzeichnis	Importieren Sie LDAP Group Benutzer	■ Excel Import (CSV Import)
	Benutzername und Passwort werden für die Anmeldung verwendet. Das Passwort sollte länger als sechs Zeichen sein. Ihre E-Mail Adresse wird nicht verifiziert und es wird keine Bestätigungs E-Mail gesendet.			
	Email			
	Email			0
	Benutzername			
	Benutzerna	ame		8
	Anzeigename			
	Anzeigena	me		0
	Telefonnummer			
	Telefonnun	nmer		
	Passwort			
	Passwort			
	Notizen			

 You can now choose how you want to add users: Either manually, with LDAP or as a CSV file.

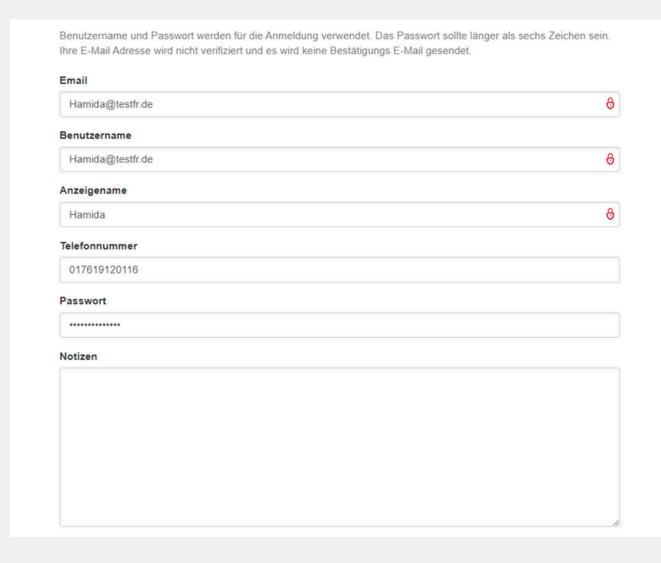

The CSV must correspond to the specified format, otherwise the upload will not succeed.

- Fill in the fields.
- Please note that the e-mail address and password are NOT saved in MobiVisor.
- We recommend that you save this assignment separately.

The user name is generated from the e-mail address.
However, you can change it at any time.

Rollen Q Suche × Rolle Sitzungszeitlimit (min) Rechte Group Admin 2628000 (Mindestens) Standard Lesen Schreiben Ressource /IdapSettings /users ✓ /violations 1 /wallpapers Alles anzeigen Diese Funktion hat alle Rechte Admin 2628000 (Mindestens) Standard Read 2628000 (Mindestens) Standard Schreiben Ressource Lesen /WebActionsLogs /actions

- Otherwise, do this later.
- You can assign users certain roles, e.g. Admin. However, you can also skip this.

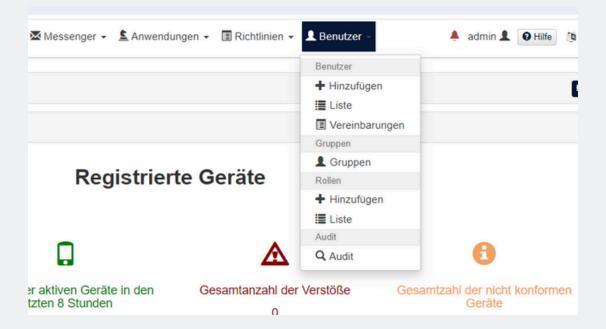

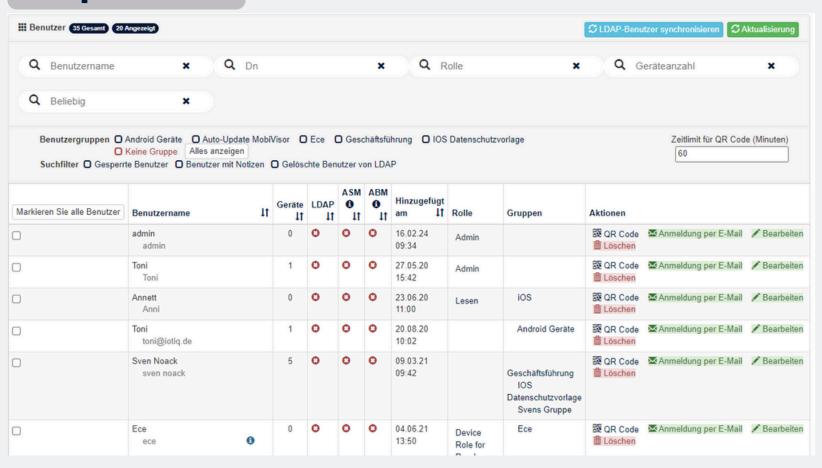

- After clicking on "Add", the user is saved.
- They will now appear in the user list.

Step 8

 To access the user list, call up "Users" again and select "List"

- You can now see which users have been created.
- The list also shows you which groups the user is in and how many devices are registered to them.

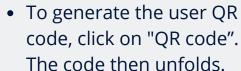

The user logs in via QR code or user name / password.

If you use the same login information on different devices, these devices are assigned to one user.

Any questions?
